

Witley 100 Long Distance Trial 2024 **Riders List and Final Instructions**

Thank you all very much for entering this year's Witley 100 Long Distance Trial.

Roger Brown has once again produced an excellent Road Book to guide you all around an interesting and scenic route. We all hope you have an enjoyable day out and good luck.

You should by now have received the Road Book. Please do not pre-ride the event.

The address for the venue is:
Down Farm, Odiham, RG29 1QX

The access to the parking field is via the track opposite the entrance to the farmyard.
What3Words /// improve.tempting.parsnips

Signing on will be from 0700 until 0845. The first riders will be away at 0900.

Please present yourself and your machine near the start area 5 minutes before your start time.

Every effort has been made to accommodate all the requests to ride together with your friends. It has not been possible to organise that for everyone due to the different riding classes.

Please speak to someone when you sign on if it has not been possible and we will try to sort it out. **We do not want groups of riders waiting on the road outside the venue.**

Numbers will be provided, one for the front of your bike and one for the back of your helmet or bike.

Excellent catering will be provided by Calvert Caterers' Van throughout the day.

If you are planning to refuel on site, you **must** use an environmental mat.

When riding on the roads and byways, please ride in a manner that is responsible and will not cause disrepute to the club and the sport in general.

The observed sections are **not** to be inspected before riding. You must make a reasonable effort to keep moving at the sections to avoid queues building up. **If the section looks too challenging, please ride around it and take a 5.**

There will be a timed Special Test when you arrive back at the end of the day.

Please take all your litter home with you from this working farm.
